

Asphalt Division Continues to Expand

Greg Kraemer, Manager Special Projects

Carolina Sunrock opened its first asphalt plant in 1993, which was located in Durham, North Carolina. Since that time, the Asphalt division has continued to expand to locations in Wake and Granville counties. In August 2015, Sunrock opened its fifth asphalt plant, which is located at the Butner Quarry. Sunrock acquired this 2007 asphalt plant from AIMix. In late 2013, a Sunrock team traveled to Florida to dismantle the plant. Sunrock trucks transported the majority of the plant to Butner. However, because the baghouse in Florida was too small AIMix agreed to sell and ship to Sunrock a larger baghouse from Albuquerque, New Mexico. Additionally, due to Sunrock's need for increased storage, the two 100-ton storage silos that were purchased from AIMix

were replaced with two Stansteel 240-ton silos, which increased our storage from 200 to 480 tons allowing for maximization of the daily production capacity in the plant. The start-up has been quite successful. One of the first jobs was 8,873 tons of NCDOT Warm Mix Asphalt for the NCDOT US 158 resurfacing project in Person County. Growth in the Asphalt division continues. In November, a Sunrock team was sent to Arkansas to dismantle and move an additional asphalt plant that will become our sixth asphalt plant. Plans are in the works for a seventh asphalt plant. This growth in our Asphalt division facilitates the capacity of Sunrock to enter into new markets, expanding our customer base and increasing our service to existing customers.

Carolina Sunrock Helps Blue Cross Blue Shield of NC Expand its New Headquarters

John Conklin, Estimator/Project Manager

Carolina Sunrock's Contracting Division has been working on the campus upgrades and expansion for the new headquarters of Blue Cross Blue Shield of NC (BCBS) at University Place in Durham. This project consists of a 75,000 square foot building expansion, which more than doubled the 73,000 square foot office building, and a new multi-level parking garage for 629 vehicles. To date, Sunrock has provided over 750 cubic yards of Ready Mix concrete for contractors throughout various stages of the job, and over 3,000 tons of Hot Mix asphalt for various parking lot renovations, new parking areas, and roadways that surround the new structures.

Working along with Balfour Beatty, the general contractor on site, Sunrock recently constructed a pedestrian improvement project that ties in the new building and new parking garage to the existing office complex. Existing entrances were demolished in order to reconfigure the new roadway entrance and parking areas. The work consisted of the installation of concrete sidewalks, curb and gutter, and a roadway entrance. This work will increase safety,

and improve the flow of both vehicle and pedestrian traffic to and from the BCBS campus. The challenge for this project was to avoid the existing web of utilities and fiber optic cables that were present just a few feet below the surface, and complete the work on time with no disruption to the current operations. Additionally, during construction, the existing employee access and parking had to remain open at all times. Sunrock's Superintendent Marcus Ingram and Foreman Preston Laney exceeded the expectations of both BCBS and Balfour Beatty by completing the project on time. Also, Marcus and Preston were commended for their coordination, cleanliness of the work area, and the quality of Sunrock's finished product.

and improve the flow of both vehicle and pedestrian traffic to and from the BCBS campus. The challenge for this project was to avoid the existing web of utilities and fiber optic cables that were present just a few feet below the surface, and complete the work on time with no disruption to the current operations. Additionally, during construction, the existing employee access and parking had to remain open at all times. Sunrock's Superintendent Marcus Ingram and Foreman Preston Laney exceeded the expectations of both BCBS and Balfour Beatty by completing the project on time. Also, Marcus and Preston were commended for their coordination, cleanliness of the work area, and the quality of Sunrock's finished product.

We look forward to building our relationship with Balfour Beatty and BCBS on future projects.

Village at the Park

Greg Johnson, Market Manager

Village at the Park is one of Pulte Homes newest subdivisions located off Green Level Church Road in Cary, NC. Carolina Sunrock is supplying Ocmulgee Concrete Construction with concrete and stone for this subdivision. To date Sunrock has shipped over 2,600 cubic yards of concrete from its RDU Plant and provided over 1,000 tons of stone from its Butner Quarry for this subdivision. Sunrock also provides concrete and stone on many other jobs for Ocmulgee in order to help them meet the demands of their commercial and residential jobs.

Sunrock's growing relationship over the years with Ocmulgee starts at the top with owner Cary Williams and CEO Scott Greene. Ocmulgee Concrete and Carolina Sunrock's great relationship and mutual respect have helped both companies to succeed in a very competitive Triangle Area construction market.

From Pepsi to Storage

Zach Satterwhite, Sales Manager

Satterfield Paving Inc. is a grading and paving contractor based in Durham, North Carolina. Satterfield Paving and Carolina Sunrock have been doing business together for over 30 years. Recently, Satterfield Paving and Sunrock teamed up to do an upgrade of the old Pepsi plant on the Western Bypass in Durham. The project consisted of converting the former Pepsi facility into self-storage units. Sunrock provided all the exterior concrete for the storage units. Additionally, the property owner decided to have the entire parking lot paved in concrete, which was furnished to Satterfield Paving by Sunrock. In total, Satterfield Paving purchased over 1,300 yards of concrete for this project.

Satterfield Paving conducts a wide variety of residential and commercial construction projects, ranging from subdivisions to storage units. We appreciate the relationship that has been built over the years and look forward to continue being Satterfield Paving's preferred supplier.

Sunrock Receives Ten Safety Awards from N.C. Department of Labor

Jason Jude, Manager Safety and Health

The N.C. Department of Labor's Safety Awards Program recognizes private and public firms throughout the state that achieve and maintain good safety records. The program is designed to stimulate interest in accident prevention and to promote safety in the workplace by providing an incentive to employers and employees to maintain a safe and healthful workplace. In operation since 1946, the program now extends to more than 3,300 firms, and about 2,000 awards are presented annually.

To qualify for the Annual Safety Award, a firm must have had no fatalities during the calendar year at the site or location for which the award was given AND have maintained an incidence rate at least 50 percent below the average for its particular industry group.

Congratulations to the following sites that were presented with Safety Awards at the Department of Labor's Banquet:

- Butner Quarry - First Year Silver
- Butner Shop - First Year Silver
- MDC - First Year Gold
- Corporate - First Year Gold
- East Wake - First Year Gold
- Woodsdale Quarry - 4th Consecutive Year Gold
- North Raleigh - Fourth Consecutive Year Gold
- ODC - Second Consecutive Year Gold
- Interhaul - Second Consecutive Year Gold
- Kittrell Quarry - 5th Consecutive Year Gold

Sunrock to Celebrate 30 Years in North Carolina

Katherine Pfohl Tejano, Executive Vice President

2015 marks Sunrock's 30th anniversary in North Carolina and 66 years in business. We are proud to call North Carolina home to our three quarries, six concrete plants, six asphalt plants, and contracting business. In thirty years, the company has undergone tremendous growth and development that would not have been possible without the visionary leadership of our Chairman, Bryan Pfohl, as well as each employee who has contributed to the continued success of the organization.

When Bryan Pfohl began operations in 1985 at the Butner quarry it was nothing more than a small abandoned pit opened solely for the construction of the nearby segment of I-85. Now that site totals in excess of 730 acres and the plant produces 1,000 tons per hour. It has extensive reserves that will last well into the next century.

In 1990 Sunrock opened its first asphalt plant in North Carolina at the Durham (MDC) location. Sunrock furthered its vertical integration model by entering the concrete business in 1993 with the opening of its Durham concrete plant. In 1996 the Butner concrete plant came online and in 1998 the North Raleigh became our third operational concrete plant. Today Sunrock has the reputation as the preferred supplier in our market for both commercial and residential work.

2002 was a busy year! The New York operations were sold and reinvestment continued in North Carolina. In the spirit of innovating creative solutions, Sunrock began utilizing the twin steer front axle

concept in its concrete mixer fleet. At time, this type of vehicle was already popular in Canada and parts of Europe. Sunrock's leadership worked with suppliers to design and obtain approval for utilization of this type of vehicle on US roadways. With two turning axles on the truck, the vehicle is able to transport a full legal 10-yard load of concrete. Twinsteers are also considered safer to operate given their even dispersion of weight.

In 2002 Sunrock grew through the acquisition of the Blalock Paving Company. This acquisition gave way to the creation of the RDU facility located near the RDU International Airport. Sunrock redesigned the site and constructed both a concrete and hot mix asphalt plant on the property to better serve the Raleigh-Durham market and surrounding areas. These two plants became operational in 2003. In 2003 the first stone was crushed at Sunrock's second quarry in Kittrell, NC off US-1. This quarry is located on a 600-acre site and has extensive reserves.

2005 brought more change as Sunrock grew through acquisition. This time the acquisition was Nello Teer's Durham asphalt plant. Shortly thereafter Sunrock opened a concrete plant at its Kittrell location. Asphalt plants were added at the Kittrell and North Raleigh locations in 2006 and 2007 respectively to improve our ability to service surrounding markets. Our third quarry was opened in 2007 in Roxboro, North Carolina, just south of the Virginia border.

To meet our growth objectives in 2008 our corporate office moved from Butner to a larger facility in

Raleigh, NC. The Butner offices, presently known as the Operations and Development Center, primarily house our contracting, dispatch, human resources, and safety departments. Additionally, this location serves as a training center for various employee training and development programs.

In 2011 we again expanded through acquisition of a site in Zebulon, NC near the Carolina Mudcats Stadium. That site, known as our Eastern Wake Facility, is home to our sixth concrete plant. In February 2012 we further diversified and entered the contracting business.

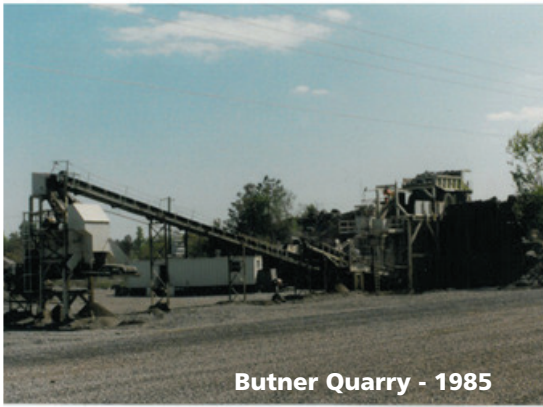

2014 marked the organization's 65th anniversary since its inception in Buffalo, New York following World War II. 2015 brings us to 30 years in business in North Carolina! We marked this occasion with the opening of our fifth asphalt plant at the Butner location where the North Carolina chapter of Sunrock's story began to unfold 30 years ago. Plans are in the works for a sixth and seventh asphalt plant. This state has been good to us and we are proud to call it home. We would like to extend our thanks and gratitude to all who had a hand in helping the organization reach this milestone. It is quite an accomplishment.

Kim Pulliam, HR Administrator

Todd Brown Jr

Todd is a former member of the US Navy. He is currently attending Wake Tech and plans to transfer to UNC Chapel Hill in the fall as an Economics Major. Todd hopes that his experience with Sunrock will help him understand the concrete and asphalt industries.

Nathaniel plans to attend Wake Tech this fall, and then transfer to UNC Charlotte in the fall of 2016. He is currently working in the shop and hopes to major in Mechanical or Civil Engineering. Nathaniel hopes to apply what he learns about quarry operations, and shop management to his future endeavors.

Nathaniel Ecke

Gulnara Mitchell

Gulnara received degrees in History and Economics while in Russia. She recently received her Human Resources Associate degree from Wake Tech. Gulnara provided support to the HR and Legal departments.

Bryson is currently attending ECU. He is majoring in Construction Management. Bryson hopes that his experience with Sunrock will enhance his career in the future.

Bryson Peed

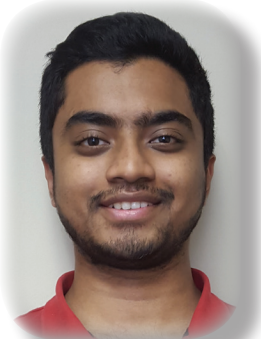

Zachary Pegram

Zach is currently attending NC State. He is majoring in Business Management. Zach worked in the Butner QC Lab.

Eric is currently attending ECU. He is a rising junior majoring in Construction Management. Eric assisted on the Skipper Bowles project, and worked with the paving crew.

Eric Trefzger

Ashok Tummala

Ashok is currently attending NC State University as a Civil Engineering major. He worked as a Field Services Intern. Ashok hopes to expand his knowledge of soil analyzation and construction management.

2015 Conferences Attended

- * On January 21, Gregg Bowler, CFO, attended the **CFMA "The 2015 Economic Update" Seminar** in Greensboro, NC.
- * On January 21, Bryan Pfohl, Chairman, Gregg Bowler, CFO and Zach Satterwhite, Sales Manager also attended the **30th Annual Triangle Commercial Real Estate Conference** on this date in Raleigh, NC.
- * On January 28, Tony Sample, Manager Environmental Compliance, attended the **NCAA – Environmental Committee Meeting** in Greensboro, NC.
- * On January 29, Tony Sample, Manager Environmental Compliance, attended the **CRMCA – Environmental Committee Meeting** via conference call.
- * On February 4 – 8, Gregg Bowler, CFO and John Barrett, General Manager of Contracting attended the **94th Annual Carolinas ASG Convention in the Bahamas**.
- * On February 10, Jason Jude, Manager Safety and Health attended the **Part 50 Overview – NC Aggregates Association Conference** in Raleigh, NC.
- * On March 4 – 5, Joanne Arena, Human Resources Manager, attended the **CAI HR Management Conference** in Raleigh, NC.
- * On March 17 – 19, Leigh Dennis, Manager of Fleet Services attended the **AEMP 2015 Conference** in Orlando, FL.
- * On March 25 – 27, Jason Jude, Manager Safety and Health attended the **NC Mine Safety & Health Conference** in Asheville, NC.
- * On April 1, Gregg Bowler, CFO and John Barrett, General Manager of Contracting attended the **2015 Economic Development Forum** in Wake Forest, NC.
- * On April 24 – 25, Chris Kibler, Shop Fleet Administrator, Eddie Ellis, Manager Concrete Production, and Philip Frame, Concrete Delivery Professional attended the **8th Annual CRMCA Mixer Driver Championship Conference** in Charlotte, NC.
- * On May 12 – 15, Jason Jude, Manager Safety and Health attended the **Archway Risk Control Workshop** in San Antonio, TX.
- * On May 20, Matt Burgess, Director of Transportation attended the **CFMA Program: Lien and Public Bond Laws Seminar** in Raleigh, NC.
- * On May 21, Diane Rupprecht, Staff Counsel and Jason Jude, Manager Safety and Health attended the **MSHA Legal Seminar 2015** in Greensboro, NC.
- * On May 26, Chris James, Corporate Controller, John Barrett, General Manager Contracting and John Conklin, Estimator/Project Manager Contracting Division attended **The State of the Chamber is the Wake Forest Area Chamber of Commerce's Seminar** in Wake Forest, NC.
- * On June 9, Gregg Bowler, CFO and John Barrett, General Manager of Contracting attended the **CAGC Triangle Luncheon** in Durham, NC.
- * On April 28, Tony Sample, Manager Environmental Compliance, attended the **NCAA – Environmental Committee Meeting** in Greensboro, NC.
- * On July 15, Tony Sample, Manager Environmental Compliance, attended the **NCAA – Environmental Committee Meeting** in Greensboro, NC.
- * On September 16, Tony Sample, Manager Environmental Compliance, attended the **CRMCA – Environmental Committee Meeting** in Charlotte, NC.
- * On September 17 – 18, Joanne Arena, Human Resources Manager attended **CAI Compensation and Benefits Conference** in Raleigh, NC.
- * On October 14 – 16, Tony Sample, Manager Environmental Compliance, attended the **CAPCA (Carolinas Air Pollution Control Association) Conference** in Myrtle Beach, SC.

SUNROCK[®] VALUES

Opportunity for ALL
Team Members

Do the
Right Thing

The Market
is Boss

Excellence through
Integrity, Execution, Innovation

Excellence through Integrity, Execution, Innovation

- This is the foundation of our shared Sunrock values, and ultimately, our success. To us, excellence means **best in class**.
- At Sunrock we achieve excellence through integrity, execution, and innovation in our work.

Do the Right Thing

- We believe our commitment to excellence is achieved by consistently acting in ways to ensure we do the right thing.

The Market is Boss

- We understand that the market dictates many of our business decisions as well as demand for our products and services.
- Understanding and respecting this principle reinforces our commitment to excellence through integrity, innovation, and execution.

Opportunity for ALL Team Members

- At our core we believe that all team members should have the opportunity to learn, contribute, make a difference, and have a solid future at Sunrock.
